Citrus

Fracino

A simple but highly efficient system for extracting pure juice from fresh oranges.

Juice in just a few seconds with Citrus

Citrus

A SIMPLE BUT HIGHLY EFFICIENT SYSTEM FOR EXTRACTING PURE JUICE FROM FRESH ORANGES.

Easy to operate; simply place half an orange in the open chamber, close the lid and the rotating head unit will swiftly extract all of the juice in just a few seconds Simple to Clean; the one piece head unit and removable, stainless steel extractor mechanism ensure optimum hygiene and an easily maintained juicer system. The clear polycarbonate jug that collects the fresh juice is also easy-clean.

The Citrino 2 is fitted with a double head extraction system to allow the user to juice a complete fruit at the same high speed. Simply cut an orange in half and place both halves in the open chamber, close the lid and in just a few seconds the juice is extracted.

Key Features

- Simple Lever System operation with unbreakable handle.
- Easy-clean body.
- Stainless Steel (304) extraction components.
- Auto operation on pressing lever down.
- Fast access for simple dismantling and cleaning of internal extractor parts.
- Extractor components are dishwasher safe.
- Includes unbreakable polycarbonate juice jug.
- Powerful motor for cool extraction process so as to maintain juice quality.
